

**There is still time to register for the 2008 RCS Cyber Science Fair (RCSCSF).** Registration has been extended to March 28. We hope that you will join us in celebrating the accomplishments of our young home school scientists, journalists, and engineers.

The RCSCSF is intended to encourage "Project Based" education in the home and to provide an opportunity for students to display their work in science and technology, via the Internet. Real science fair projects will be created by the student and presented on-line, via MS PowerPoint presentation. Wooden plaques will be awarded to all project teams or individual entrants this year. Students may enter projects in any of FIVE categories, depending on the methods they have chosen to study science and/or technology.

Please visit the 2008 RCSCSF web-site for all up-to-the-minute news and information. The link below will take you to the "First Time" entry page. After downloading the ShockWave player, you will be able to go to the home page of the web-site, with out delay.

<http://learningsurge.com/rcs/rcscsf0708/index.htm>

All rules may be found by clicking on the "Handbook" link, once you enter the RCSCF venue
